

Drug Equipment VALUE

One FBI Data Quality Issue is with Seized Drug Equipment Property Values. They receive many Incidents that contain the Value of \$1.00 which means Unknown.

The MBCC & FBI do not keep any resources to determine this Value for crime reporting purposes.

Although a property value of \$1.00 is possible, please find resources that your agency can use to determine the best known Value for the Seized Drug Equipment instead of entering \$1.00, Unknown.
