  - 45,000
- Estimated cost per person in 2017
  - \$115
- Estimated cost per person in 2021
  - \$177

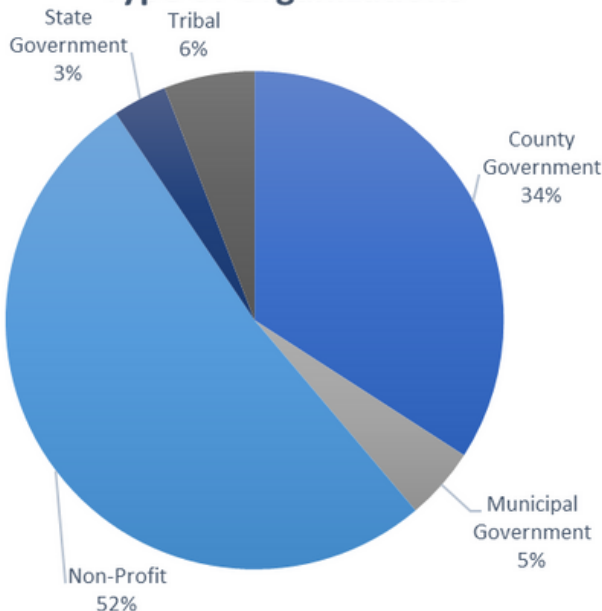

## OBJECTIVES

Victim services throughout the state of Montana include local advocacy agencies and systems-based victim services. These services seek to serve victims of crime and survivors across the state covering any age, gender, and race. The organizations and programs who's data was used represent everything from local community advocacy programs to tribal government and tribal non-profits, and state government programs.

### Cost of Services

- Estimated cost per service provided
  - 2017 - \$15
  - 2018 - \$22
  - 2019 - \$23
  - 2020 - \$21
  - 2021 - \$23
- Total services provided
  - 2017 - 212,243
  - 2018 - 299,620
  - 2019 - 359,506
  - 2020 - 401,090
  - 2021 - 332,613

## Type of Organizations

## TYPES OF ORGANIZATIONS REPRESENTED

### State Government - 3%

From 2016 to 2021, three state programs who support victim services received funding and supplied data regarding who was served.

### Tribal - 6%

Between 2016 and 2021, MBCC provided funding to five tribal entities, including both tribal nonprofits and tribal governments. Nevertheless, tribes also have the option to access federal funding through the Bureau of Indian Affairs and often utilize this resource.

### County Government - 34%

From 2016-2021, 29 county government agencies received funding. County government agencies include county attorney offices and sheriff's offices.

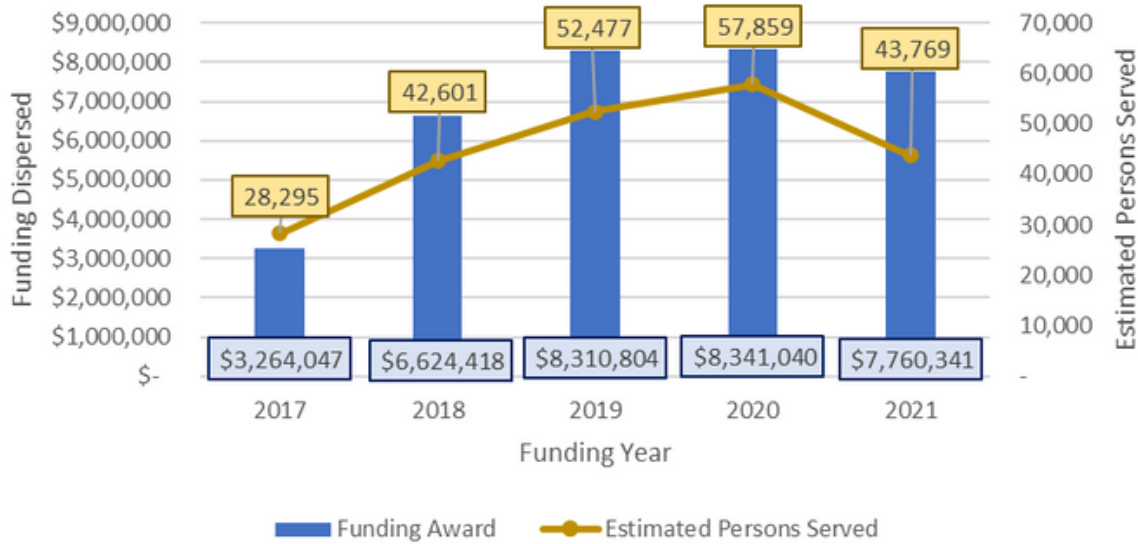

### Municipal Government - 5%

From 2016-2021, four city or town governments received funding. Municipal governments are represented by police departments and city attorney's offices.

### Non-Profit Organizations - 52%

From 2016-2021, 44 non-profit organizations received funding.

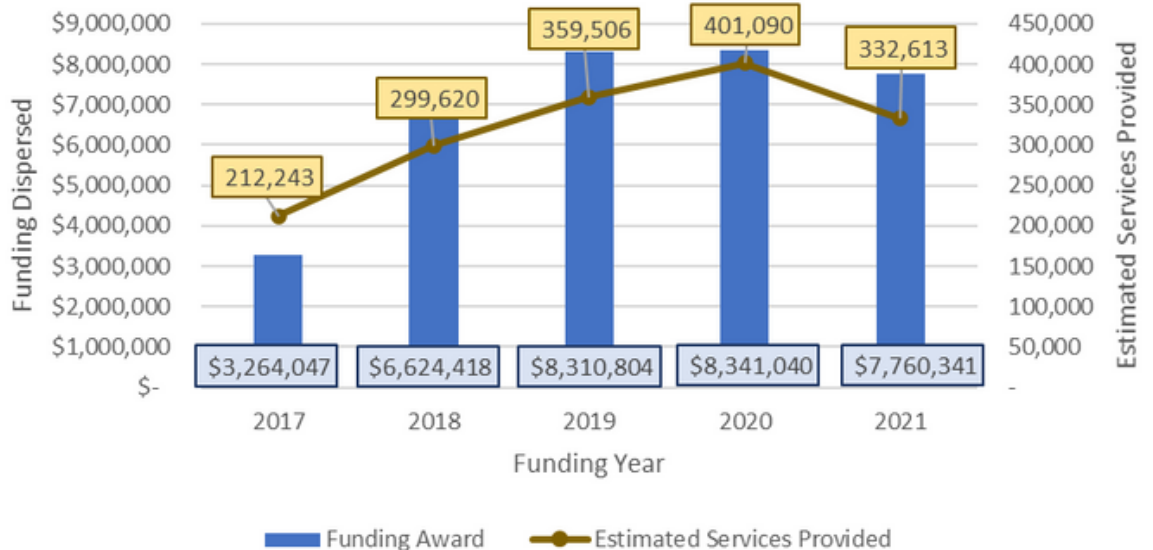

## Persons Served by Funding Year

Graph illustrates funding dispersed and reported persons served. As funds increase and decrease, the number of persons served increases and decreases respectively.

Graph illustrates funding dispersed and estimated services provided. As funds increase and decrease, the reported services provided increases and decreases respectively.
